

**Gert 'Jim' Muller**

**aka Speed**

**Treasurer Candidate**

Let's call this an attempt of a young modeler trying to figure out what is happening in the principal's office! The "treasurer's" experience I have is to avoid spending more money than I earn, but maybe my second term as PTA Treasurer, where we budget and bring in to spend close to \$80,000, might count for something too. Every penny is accounted for and every t gets crossed. Short background story: grew up in Namibia on a cattle ranch with no electricity and no TV. Left the countryside to get an electronic engineering degree in South Africa, and then on to the States to meet you guys. I model the northern half of the Namibian railroad in N scale. Progress is moderately slow, since I always tend to venture out to help someone else with an electronic railroad problem. So, since it is my mission in life, all I can promise if you vote for me: every board member will have a smile on his face, at least once a meeting!
